4. Evidentiary Discrepancies (Cross-Source Verification)

DATA DISCREPANCY DETECTED: DISCREPANCY-001	STATUS: DATA DISCREPANCY DETECTED
Title: Contradiction: Accused Alibi Statement vs Telecom CDR Tower Ping	Conflicting Field: Physical Location Coordinates at 2024-08-14 02:40 AM
Source A (Accused Statement in FIR-2024-8841 Case Diary Vol I): • <i>Doc Ref:</i> Case Diary Entry #14-B dated 2024-08-15 Timestamp: 2024-08-14 02:40:00 UTC • <i>Recorded Value:</i> Hotel Blue Diamond, Koregaon Park, Pune, Maharashtra • <i>Excerpt:</i> 'I retired to my room at Hotel Blue Diamond, Pune by 11:30 PM on August 13 and did not travel anywhere until the afternoon of August 14.'	Source B (Airtel Telecom Tower Carrier Dump - Certified BSA Sec 63): • <i>Doc Ref:</i> Carrier Audit File AIRTEL-CDR-20240815.csv Timestamp: 2024-08-14 02:40:18 UTC • <i>Recorded Value:</i> Nhava Sheva Sector 4 Tower (Cell ID: 19402, Lat: 18.9535, Lng: 72.9480) • <i>Excerpt:</i> 'Subscriber +91-98201-99412 registered incoming SMS delivery receipt and data session handover at Nhava Sheva Port Sector 4 tower, 120km away from Pune.'
Analytical Assessment: Physical alibi statement is mathematically irreconcilable with radio propagation range of Sector 4 cell tower. System flags this for investigator follow-up without drawing definitive legal conclusions.	Recommended Investigator Actions: 1. Subpoena Hotel Blue Diamond guest register and CCTV footage for August 13-14. 2. Request cell tower LAC timing advance records for precise 50m distance estimation. 3. Re-interview accused with corroborated telecom timeline.

DATA DISCREPANCY DETECTED: DISCREPANCY-002	STATUS: DATA DISCREPANCY DETECTED
Title: Discrepancy: Shipping Cargo Declaration vs Physical Customs Panchnama	Conflicting Field: Declared Consignment Weight & Commodity Code
Source A (Import General Manifest IGM #239104): • <i>Doc Ref:</i> Customs ICEGATE Electronic Manifest Filing Timestamp: 2024-08-10 16:00:00 UTC • <i>Recorded Value:</i> HS Code 08041020: Fresh Dates, Gross Weight 18,200 kg • <i>Excerpt:</i> 'Commercial importer declares 800 cartons of premium packaging dates in cold container.'	Source B (Physical Joint Customs & CID Panchnama): • <i>Doc Ref:</i> Panchnama Seizure Exhibit P-1 dated 2024-08-14 Timestamp: 2024-08-14 03:15:00 UTC • <i>Recorded Value:</i> Concealed Contraband: 42.5 kg Narcotic Consignment behind false bulkhead • <i>Excerpt:</i> 'Physical search revealed false bulkhead partition containing tamper-wrapped packages with chemical odor, not declared in IGM.'
Analytical Assessment: Weight discrepancy confirms secondary unmanifested payload concealed within container structure.	Recommended Investigator Actions: 1. Impound shipping agent electronic correspondence. 2. Forensic examination of container weld joints. 3. Trace freight payment origin account.

5. Cryptographic Evidence Integrity (M6 Ledger & SHA-256 Audit)

Immutable Audit Chain: In accordance with Bharatiya Sakshya Adhiniyam (BSA) Section 63, all electronic records are hashed upon ingestion and verified periodically against the decentralized ledger. Both verified immutable records and tampered anomaly alerts are recorded below.

7. Formal Attestation & Judicial Certification

Certificate under Section 63 of Bharatiya Sakshya Adhiniyam, 2023: I hereby certify that the electronic records, hash digests, network relationships, and discrepancies compiled in this document were produced by computer systems operating under regular supervision during the ordinary course of investigative duties. The cryptographic SHA-256 hashes were calculated directly from bitstream forensic copies without manual interception or post-facto modification.
